

WE ARE HIRING

Entry-Level Analyst Position at Axiom Advisors, LLC.

Company:	Axiom Advisors, LLC.
Location:	Miami, FL
Industry:	Automotive
Specialization:	Accounting
Job Type:	Hybrid (Remote & On-Site)
Travel Required:	25%

ABOUT US

Axiom Advisors is a leading consulting firm based in Miami, focusing exclusively on the automotive industry. When we launched our firm in 2011, we recognized that retail automotive dealers were receiving inadequate service and attention within the consulting domain.

Our firm specializes in three key areas of expertise:

- **Mergers and Acquisitions**
- **Enterprise Management**
- **Litigation Support**

Axiom Advisors is committed to empowering dealerships by providing truthful observations and measures alongside effective solutions. Our clients' protection, financial stability, and growth are our goals alongside a positive and driven work environment for our team.

THE ROLE

We are seeking an entry-level Analyst to join our dynamic team. This position is ideal for a degree-seeking student or recent college graduate looking to start their career in accounting within a specialized consulting environment as an apprentice.

THE ENVIRONMENT

As a boutique firm, our fundamental growth and success hinge on delivering exceptional, personalized, and professional service to all our clients. Contrary to many firms that oversell services and overextend their personnel resources, Axiom restricts the number of clients we engage, prioritizing our capacity to meet the needs of our existing clients first.

When joining Axiom, you become part of a team of innovative and passionate professionals who aspire to excel in their field and deliver the finest customer experience possible. Axiom aims to be the most trusted firm in our industry, not necessarily the largest. With this perspective, our core belief is that we desire team members who genuinely care about the industry we serve and are enthusiastic about delivering personalized and dynamic products to satisfy client needs.

RESPONSIBILITIES

- **Data entry; updating internal documents with pertinent client information**
- **Data pull: learn how to navigate client accounting systems to download data**
- **Support in testing entry-level business functions for internal audits**
- **Document findings in a well-articulated format that, upon review, will be shared with clients**
- **Configure reports and assist with basic formatting as necessary**
- **Collaborate with team members to ensure compliance with company policies and procedures**

QUALIFICATIONS

- **Bachelor's degree in accounting, finance, or a related field**
- **Strong understanding of accounting and financial principles**
- **Proficiency with accounting software and MS Office (Excel, Word, PowerPoint)**
- **Excellent analytical, problem-solving, and time management skills**
- **Superior attention to detail and accuracy**

WHAT WE OFFER

- **Competitive salary commensurate with experience**
- **Comprehensive benefits package including health insurance reimbursement**
- **Retirement plan options with company contribution**
- **Opportunities for career advancement in a niche industry**
- **Supportive work environment that fosters team collaboration and growth**
- **Flexibility with a hybrid work model comprising both remote and in-office activities**

If you are a passionate professional with a desire to learn the automotive industry and are looking for a career with a leading consulting firm, we would love to hear from you. Please submit your resume along with a cover letter detailing your experience and how it aligns with this role.

Join us in steering the financial success of the automotive industry—[apply today!](#)
